

One Onboarding Platform

Two Flat Fee Prices

Only Ever Billed On Use

Having a single solution that delivers all your onboarding tasks makes life easier for you and your clients.

But there's always room for improvement. Which is why we're delighted to announce our simpler, two-tier, flat fee pricing model and our promise only to bill you when your clients actually use the platform.

If you're working on conveyancing transactions, you'll benefit from the Property Onboarding Fee, giving you a choice of Sale, Purchase and Giftor matter types. Each one includes Digital ID checks, AML, Source of Funds & Wealth Reports, Licensed Law Society TA Forms and bespoke client forms, plus electronic signatures for just **£12.00 per party** (£14.40 incl VAT).

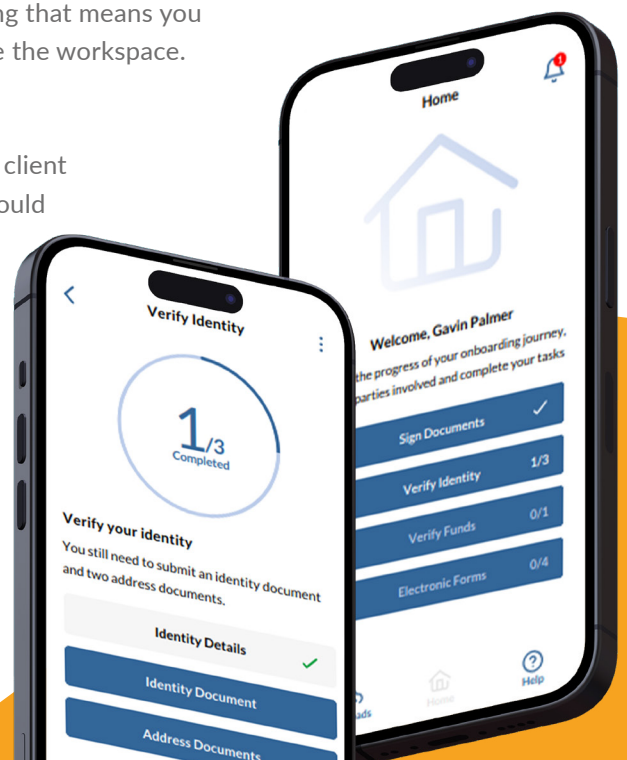

If you're working on non-property transactions, you'll likely benefit more from the simpler Verification Onboarding Fee, which provides Private client, Commercial Client or Verification Only workspaces, with the same Digital ID, AML and client forms, but with simpler VOF reporting, and without TA Forms or digital signatures for just **£8.00 per matter** (£9.60 incl VAT).

The eCOS Payment on Use Promise

We are also introducing a completely new and unique approach to billing that means you will only be invoiced for each party you onboard when they actually use the workspace. This has two great benefits:

1. You will never have to pay for onboarding that you don't use. If the client doesn't complete an onboarding task you won't be charged. This could **save you as much as 20%** of your current onboarding costs.
2. You'll also never need to ask us for refunds if a workspace isn't used, which will make everyone's lives easier.

Billing will only be triggered when your client completes their VOI, signs your Engagement Letter, completes their VOF, or signs any of their Onboarding Forms and that document is sent to you. Fees are also charged per party - not for everyone in the workspace, **so you'll never again be charged for onboarding that hasn't happened.**
